PowerSchool Foster Data Entry

Accurate reporting of foster student data is important as foster students are eligible for services and are used to determine the unduplicated pupil count for Local Control Funding Formula (LCFF) purposes. Furthermore, the data is used to determine the Academic Performance Index (API) foster youth subgroup.

Foster Data That is Needed in PowerSchool

Starting with the 2014-15 school year, foster data will no longer be collected using the Primary Residence field. Instead, CDE will be providing a weekly foster file with matched data from the CA Department of Social Services (CDSS) which will be uploaded into PowerSchool. The match rate has a 90% success rate. However, the unmatched foster students need to be collected in the Program Eligibility section of the State/Province CA screen. In order to determine who is unmatched, "after you tap into the "low title" View Matched Foster Students".

A. How to View Your Matched Foster Students
   1. List of Active Students: Start Page > Special Functions > CALPADS Student Program Enrollments > Disp (next to 190 Foster Program). If the student does not appear on the list, then they were not part of the latest matched foster file.
   2. Individual Student: Search for the student then select State/Province CA > Program Eligibility > Education Program Code 190. If there is not a Foster Program record, or if the most recent Foster Program record has a program end date, then the student was not part of the latest matched foster file.

If a student was not part of the latest matched foster file, then "after you tap into the low title When Foster Student Is Unmatched".

B. What to do When a Foster Student Is Unmatched
Foster students who are not matched by CDE should be entered into the Program Eligibility section of the State/Province CA screen. The Foster Client ID is required to create a program eligibility record in PowerSchool, however, the Foster Client ID will not be attainable. Instead, enter five # signs (shift+3) in the Foster Client ID field.

To create a Foster program eligibility record, search for the student then click on State/Province CA > Prog [;>

   Select Education Program Code (190 - Foster Program)
   3. Select Education Program Membership Code (1 - Eligible)
   4. Enter Education Program Membership Start Date - ENTER a start date that falls within the school enrollment
   5. Education Program Membership End Date - do NOT enter an end date
   6. Enter Student Foster Client ID field: #####
   7. Click Submit

After the program eligibility record is saved, changes cannot be made by school site personnel so it is important that all the required information is entered correctly. Email helpdesk@wccusd.net if any changes need to be made.
