- October 23: Agenda Setting, Superintendent's Office, 4:30 PM
- October 23: Youth Commission, Helms, 6:30 PM
- October 25: CBOC, FOC, 6:00 PM

Lake Elementary School Project Update-Lisa LeBlanc

There are multiple projects at various stages of construction for Lake Elementary School. The Board approved a contract for the camera installation on July 19, 2017. The Technology Department is in the process of upgrading the entire networking infrastructure at Lake. The camera installation is dependent upon installation of a new network infrastructure. We anticipate that the cameras will be operating by the end of the calendar year.

The Facilities Department is currently preparing demolition plans for the lake childcare portables that have been vacant and are beyond their usable life cycle. The demolition of the portables is part of the scope of the Facilities Master Plan campus replacement project scheduled to begin planning in summer of 2019. Staff is recommending the Board approve a portion of the master plan budget on October 18, 2017 to demolish the portables this winter. Cash flow is available at this time due to the anticipated influx of State dollars. We are targeting a February 2018 completion for the demolition. The facilities department is also planning to address the space needs at Lake Elementary School using the capital outlay funds (Fund 40) to install two portables on site by the end of the calendar year. The Lake community has a need for additional space for community and health care providers. The timelines for the demolition and portable installation projects are, of course, subject to DSA approval and/or favorable weather. We will update the Board if there are any changes to the timelines.

Public Records Log – Marcus Walton

Included in this week's memo is the log of public records requests received by the District. If you have any questions, please contact me.
