

Prioritization Committee Reviewed a Portion of the Criteria

Prioritization Committee reviewed the previous criteria and metrics for updating

The 5th committee meeting on February 2nd resulted in recommended criteria and metrics to be sent to the Facilities Committee

Criteria	Proposed Metric

Creating Options

The District is analyzing change in population, programs, regulations, and safety that impact the utilization of facilities

- Capacity analysis and future growth

- Access to Programs and Academic facilities

- Required Safety requirements that have become evident in the past 5 years

Discussion with the Facilities Committee potential solutions and evaluation of the options which incorporates the changing conditions required in an analysis of the totality of facilities based upon the priorities of today

Return the combined evaluation of the prioritization committee with the Facilities Committee direction for finalization to take to the Board of Education for adoption
